<b>Appendix A - FFIEC 002 Report Detailed Field Specifications .....</b>	<b>15</b>
<b>Appendix B – FFIEC 002S Report Detailed Field Specifications .....</b>	<b>47</b>

## Overview

The Federal Reserve System's Reporting Central Application provides the ability to submit spreadsheet files (*e.g.*, Microsoft Excel©), via the internet. As a result, reporting institutions that use a spreadsheet to prepare their data will not have to key their data into a web page form. While this feature was provided for reporting institutions using spreadsheets, the file can be created by any other backend system that a reporting institution uses to generate its data.

This document provides the required file format for submitting the data via Reporting Central, and demonstrates how a reporting institution can create the file from a spreadsheet.

Microsoft Excel© was used in this example but the same process can be applied to other spreadsheet software. The method utilized to create the file is at the discretion of the reporter. This guide assumes that the data already exist in spreadsheet form.

This document demonstrates how to create the file for the **FFIEC 002 – Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks and the FFIEC 002S – Report of Assets and Liabilities of a Non-U.S. Branch** that is Controlled or Managed by a U.S. Branch or Agency of a Foreign (Non-U.S.) Bank. Formulae were used to pull the data from the spreadsheet worksheets containing the data and format them for transmission to Reporting Central.

## How to create a text file from a spreadsheet for the FFIEC 002

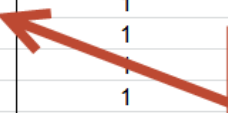

The FFIC 002 is comprised of multiple schedules and over 900 financial and text fields. In order to minimize issues with problems arising during the creation of the Reporting Central text file it is strongly recommended that the following process be observed. Please note that only one file can be submitted for each individual respondent. It is no longer possible to submit multiple braches or agencies on a single file.

### Field Labels

The identifying label for both financial and text data is the eight character descriptor listed in Appendix A in the 'RC ITEM IDENTIFIER' column.

FFIEC002 VERSION 28					
	REPORT DATES:	140331			
	UP TO VERSION:	29			
FLOW:	Input from DI

RCFD0371	1		RAL	1B2	A
RCFD1402	1		N	2	C

**Item Field Label**

## Field Values

Financial data fields can have both positive and negative values. When creating the text file all positive values must be preceded with a plus sign ('+') while all negative values must be preceded by a minus sign ('-'). Some financial fields can also be zero filled or left blank. Fields that are zero filled must be formatted as '+0' while numeric fields that are left blank are reported as '-0'.

The report cover page and several schedules contain textual data. All text data fields are preceded by a plus sign and an underscore ('+\_').

## Step 1 – Create Data Listing

Since it is presumed that the reporter already has the report data in spreadsheet format, all subsequent steps in this guide are based on using this report data as the source. The first step recommended is to create a sequential data listing of all the financial information containing the item number, the eight character field label, item description, and reported amount as Sheet 1.

FFIEC 002 Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks				
Respondent ID	9999999999			
Series Name	FFIEC002			
As of Date	03-31-2014			
	1AA	RCFD0010	CASH AND BALANCES DUE FROM	60000
	1B1A	RCFD0260	U.S. TREASURY SECURITIES	0
	1B2A	RCFD0371	U.S. GOVT AGY OBLIGATIONS	0
	1C1A	RCFDA003	FGN GOVT/OFFCL INSTIT SEC.	0
	1C2AA	RCFDC416	MORTGAGE BACKED SEC. US GOVT.	0
	1C2BA	RCFDC417	MORTGAGE BACKED SEC. OTHER	0
	1C3A	RCFDC036	OTHER ASSET-BACKED SECURITIES	0
	1C4A	RCFDC037	ALL OTHER SECURITIES	0
	1D1AA	RCFDC412	FED FUNDS SOLD W/ CML BK IN US	0
	1D1BA	RCFDF856	FED FUNDS SOLD W/ NON-BANK	0
	1D1CA	RCFDC413	FED FUNDS SOLD W/ OTHER	0
	1D2AA	RCFDC414	SEC. PURCHASED W/ CML BK IN US	0
	1D2BA	RCFDF857	SEC. PURCHASED W/ NON-BANK	0
	1D2CA	RCFDC415	SEC. PURCHASED W/ OTHERS	0
	1EA	RCFD2122	LOANS AND LEASES, NET	40000
	1F1A	RCFDK479	TRADING ASSETS US TREASURY/GOV	0
	1F2AA	RCFDK298	TRADING ASSETS MBS U.S. GOVT.	0
	1F2BA	RCFD3536	TRADING ASSETS MBS OTHER	0
	1F3A	RCFDK299	TRADING ASSETS ASSETS-BACKED	0
	1F4A	RCFDL488	TRADING ASSETS OTHER SEC	0

The next step is to add all the text data directly below the financial information.

TM3AB	RCFDB932	TR FND: MKT VAL DOMESTIC EQU	0

	TEXT9116		(415) 555-1212
	TEXTC366		Ms. Andrea Martin
	TEXTC367		VP/Controller

This is to aid in troubleshooting potential problems further in the process.

## Step 2 – Link and Format Data Cells

In Sheet 2 of the workbook all of the financial and text items will be linked to Sheet 1 and formatting characters inserted to aid in the creation of the final text file. The basic formula used is:

```
= "AAAA9999"&"+"&Sheet1!G496&"&","
```

The formula begins by inserting the eight character field label as text contained within quotation marks ("AAAA9999"). The ampersand indicates there are additional values (&). The plus sign is enclosed in quotation marks to indicate a positive value ("+" ). NOTE: if the value was negative it would be preceded by a minus sign here ("-"). The next ampersand indicates there are additional values (&). The financial data is extracted from its cell location in Sheet 1 (Sheet1!G496). The final ampersand indicates there are additional values (&). The last item is to inset a comma at the end of the field by placing it in quotation marks ("," ). This will generate a fully formatted field that appears as:

```
AAAA9999+500,
```

This is repeated for all fields of the financial data.

5M9EC	RCFDA060	RCFDA060+0,
5M10C	RCFDA064	RCFDA064+0,
5M11C	RCFDA068	RCFDA068+0,
5M12A1C	RCFDA076	RCFDA076+0,
5M12A2C	RCFDA080	RCFDA080+0,
5M12B1C	RCFDA084	RCFDA084+0,
5M12B2C	RCFDA088	RCFDA088+0,
5M9AD	RCFDA037	RCFDA037+0,
5M9BD	RCFDA041	RCFDA041+0,
5M9C1D	RCFDA045	RCFDA045+0,
5M9C2D	RCFDA049	RCFDA049+0,
5M9D1D	RCFDA053	RCFDA053+0,
5M9D2D	RCFDA057	RCFDA057+0,
5M9ED	RCFDA061	RCFDA061+0,
5M10D	RCFDA065	RCFDA065+0,
5M11D	RCFDA069	RCFDA069+0,
5M12A1D	RCFDA077	RCFDA077+0,
5M12A2D	RCFDA081	RCFDA081+0,
5M12B1D	RCFDA085	RCFDA085+0,

In this example the item number and corresponding eight character label were included as the first two columns and the resulting text field derived from applying the above formula is the third column. This step is not required but can be useful in tracking the source of the linkage.

The formula to extract text information contains a few additional character settings:

```
= "AAAA9999" & "+" & "_" & Sheet1!G496 & "___" & "&,"
```

Just as with the formula for financial data it begins by inserting the eight character field label as text contained within quotation marks ("AAAA9999"). The first ampersand indicates there are additional values (&). As mentioned previously, text must be preceded by a plus sign and one underscore, which is enclosed in quotation marks ("+\_"). The next ampersand indicates there are additional values (&). The text data is extracted from its cell location in Sheet 1 (Sheet1!G865). The next ampersand indicates there are additional values (&). Two underscores contained within quotation marks are inserted to indicate the end of the text field ("\_\_\_"). The last ampersand indicates there are additional values (&). The last item is to inset a comma at the end of the field by placing it in quotation marks (","). This will generate a fully formatted field that appears as:

```
TEXTC490+_Mr. John Smith___,
```

Once all fields have been linked it is now possible to build the text file.

### Step 3 – Build Text File

The text file is created in a two-step process. The first part is to create a new worksheet (Sheet 3) using the linked data fields in Sheet 2. The formula to begin building this component of the text file is:

```
=Sheet2!A900&Sheet 2!A901&Sheet2!A902.....
```

The formula begins with the cell location of the data field in Sheet 2, followed by an ampersand to indicate additional data (&) with this format continuing until all data fields are strung together. Because of formula size limitations it is necessary to break this down into five separate formulas keeping the text fields as the final item.

```
RCFD0010+60000,RCFD0260+0,RCFD0371+0,RCFDA003+0,RCFDC416+0,  
RCFD8743+0,RCFD8747+0,RCFD8696+0,RCFD8700+0,RCFD8704+0,RCFD  
RCFDB705+0,RCFDB712+0,RCFDC393+0,RCFDC400+0,RCFDB726+0,RCF  
RCFDB884+0,RCFDB886+0,RCFDB890+0,RCFDB894+0,RCFDB869+0,RCF  
TEXTC490+_Mr. John Smith__,TEXTC491+_SVP/Chief Financial Officer__,TE
```

The second step is to create a final formula to consolidate the five formulas on Sheet 3.

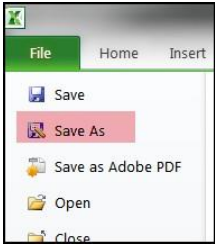

```
=Sheet3!B2&Sheet3!B3&Sheet3!B4&Sheet3!B5&Sheet3!B6
```

The formula begins with the cell location in Sheet 3 of the first formula, an ampersand to indicate additional information, then the cell location in Sheet 3 of the second formula and so on until all five formulas are linked together. This will become the source of creating the text file.

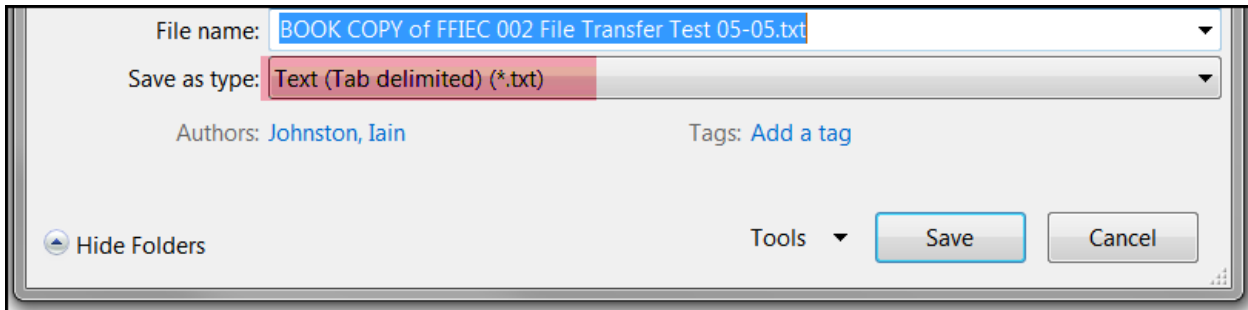

It is strongly recommended that the spreadsheet file be saved before continuing.

## Step 4 – Create and Format the Text File

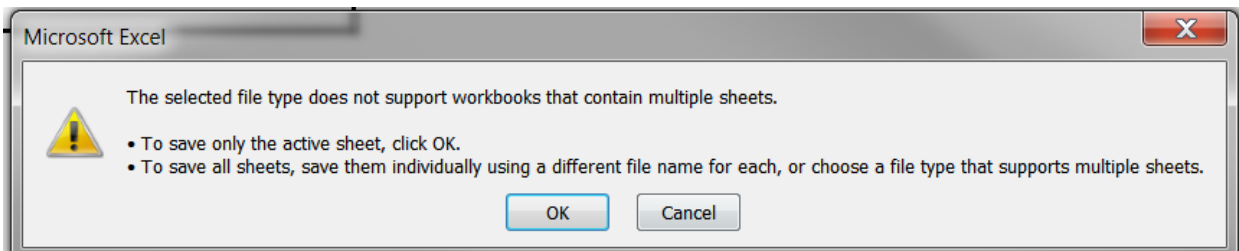

After saving the file in spreadsheet format the text file can be created by first navigating to the File tab:

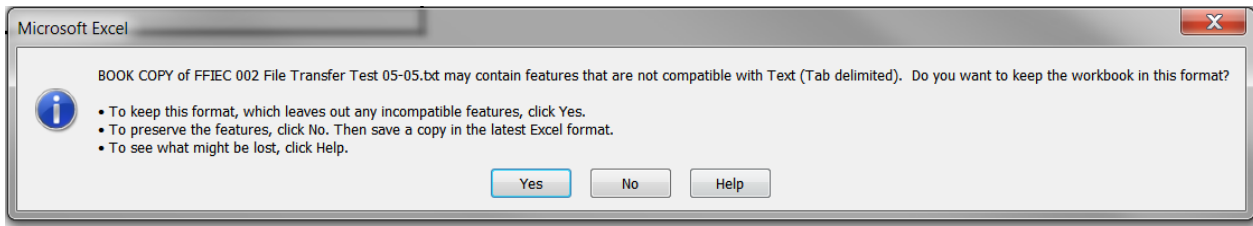

Then selecting the 'Save As' option and indicating the file type as 'Text (Tab delimited) (\*.txt)':

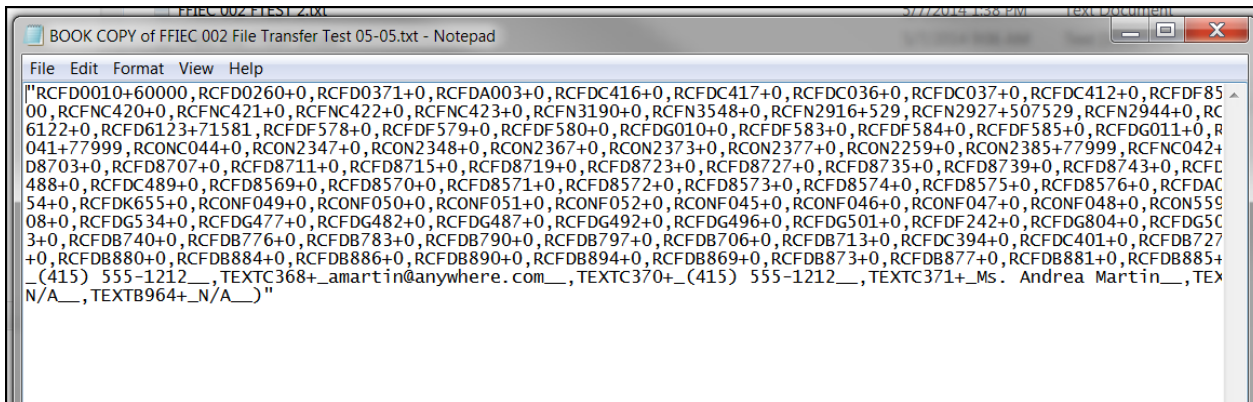

A message will appear indicating that this file selection does not support workbooks with multiple worksheets, select 'OK':

An additional message will be displayed concerning incompatibility features, select 'Yes':

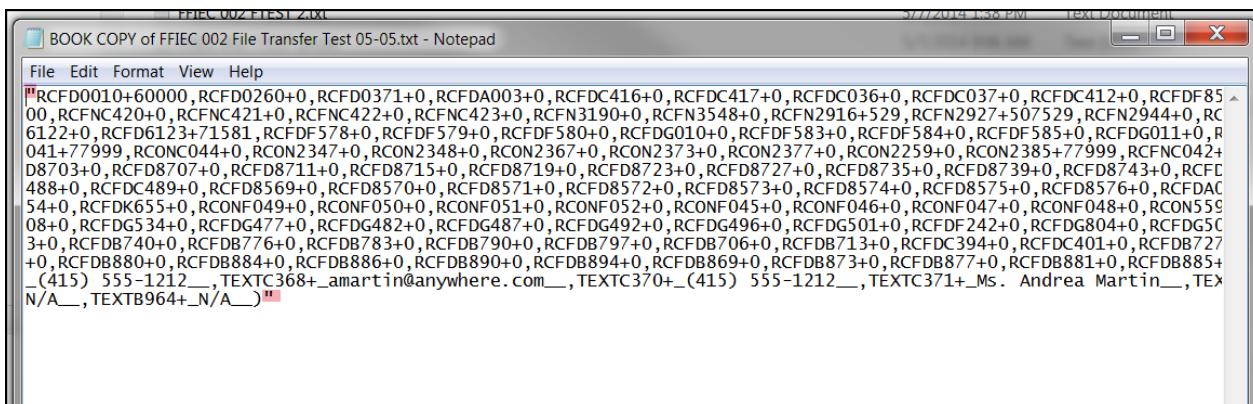

The spreadsheet file can be closed, but without saving changes. The text file will have been created and will look as follows:

### Step 5 – Format the Text File

The first step is to remove the double quotation marks at the beginning and end of the file:

The next step is to insert the header record. Insert a blank line at the top of the text file and insert the following information:

```
(PASSWORD,FFIEC002,140331,0000999999,140508,15253600,
```

The first item in the file header must be a left parentheses, '(' . This is followed by the series password that is provided by the Federal Reserve Bank analyst. It must be exactly eight characters in length and spaces should be inserted if the actual password is shorter. Next is the report series name 'FFIEC002', followed by the report as-of date in year, month, and day format (YYMMDD). Next is the reporter RSSDID. It must be ten digits in length and should be prefixed by leading zeroes if shorter. Lastly is the date and time stamp. Enter the date submitted in year, month, and day format (YYMMDD) followed by a comma and then the time submitted in hour, minute and seconds format (the last two digits should be zero filled) followed by a comma (',').

The final step in formatting is to insert a right parenthesis ')' at the end of the file. The file should now be ready for submission to Reporting Central.

## Step 6 – Reporting Central Submission

Logon to Reporting Central and select the File Upload tab.

The screenshot shows the 'Reporting Central' application interface. At the top, the title 'Reporting Central' is displayed in a large white font on a dark blue background. Below the title, the version information 'Build: 2.0.0 (05/06/2014 11:06 AM) (revision: 2331/T6555)' is shown. A navigation bar contains five tabs: 'Status/Search', 'Data Entry', 'File Upload' (which is highlighted in blue), 'Data Editing', and 'Admin'. Below the navigation bar, the text 'Specify a file to upload.' is followed by a 'File:' label, an empty text input box, and a 'Browse...' button. A 'Continue' button is positioned below the input box.

Select the 'Browse' button to navigate to the stored text file and select the filename so it appears in the 'File:' box. Select continue to upload. If there are no formatting issues during the file upload the data will load directly into the report screen.

The screenshot shows the 'Reporting Central' application interface after a file upload. The title 'Reporting Central' and version information are the same as in the previous screenshot. The 'File Upload' tab is still selected. Below the navigation bar, a form displays the following information: 'Reporter:' (redacted), 'Series:' FFIEC002, 'Asof Date:' 03/31/2014, 'Security Classification:' Internal FR, 'Status:', 'Submission Date:', and 'Submitter:'. Below this form, a 'Sections:' dropdown menu is set to 'Cover Page' with a 'Select' button. A row of buttons includes 'Save As Draft', 'Save As Draft with Edits', 'Validate', 'Submit', 'Cancel', and 'Clear Form'. At the bottom, the text 'Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks - FFIEC 002' is displayed on the left, and 'Federal Financial Institutions Examination Council Board of Governors of the Federal Reserve System' is displayed on the right.

The report data can then be validated and saved. If errors exist in the text file error messages will appear in the file upload window, which can be used to troubleshoot any formatting issues.

## **How to create a Text file from a spreadsheet for the FFIEC 002S**

All of the formatting requirements that apply to the FFIEC 002 report also apply to the FFIEC 002S. The only difference is to the header information and the field labels. The file header information referenced in Step 5 of the FFIEC 002 should be replaced with the following:

**(PASSWORD,FIEC002S,140331,0000999999,140508,15253600,**

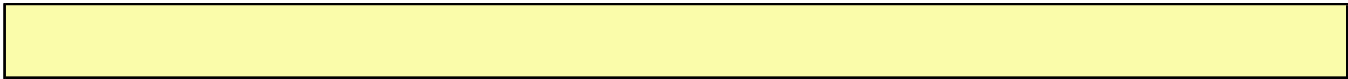

The first item in the file header must be a left parentheses, '(' . This is followed by the series password that is provided by the Federal Reserve Bank analyst. It must be exactly eight characters in length and spaces should be inserted if the actual password is shorter. Next is the report series name 'FIEC002S', followed by the report as-of date in year, month, and day format (YYMMDD). Next is the reporter RSSDID. It must be ten digits in length and should be prefixed by leading zeroes if shorter. Lastly is the date and time stamp. Enter the date submitted in year, month, and day format (YYMMDD) followed by a comma and then the time submitted in hour, minute and seconds format (the last two digits should be zero filled) followed by a comma (','). The final step in formatting is to insert a right parenthesis ')' at the end of the file. The file should now be ready for submission to Reporting Central.

Lastly, the field labels are found in Appendix B.

DESCRIPTION: FFIEC002 VERSION 29

The following guidelines for the electronic submission of the data files should be observed:

Please refer to the report form and instructions for these requirements.

All financial items without reported data should be zero filled EXCEPT for those items referenced in the  
 \* RCFN tab, which can be null, zero filled or actual.

\* The following sections address the transmittal of null values for items that are not applicable.

\* The following text items should be null when there is no associated financial data reported.

Schedule RAL, Memo Items 14 and 15 text,

14a (TEXTA539)

14b (TEXTA540)

14c (TEXTA541)

15a (TEXTA542)

15b (TEXTA543)

15c (TEXTA544)

Schedule L, Items 7 and 8 text,

7a (TEXT5598)

7b (TEXT5600)

7c (TEXT5601)

8a (TEXT5604)

8b (TEXT5605)

8c (TEXT5606)

Schedule M, Part V, Items 7 and 8 text,

7a (TEXT8570)

7b (TEXT8571)

7c (TEXT8572)

8a (TEXT8574)

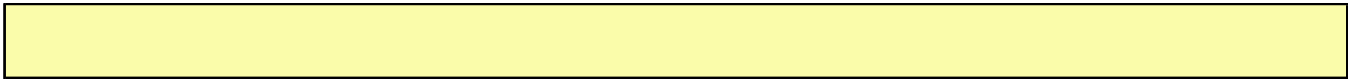

8b (TEXT8575)

8c (TEXT8576)

Schedule Q, Memo Items 1 and 2 text,

1c (TEXTG546)

DOCUMENT	CIPS TECHNICAL	RELEASE NUMBER	1.1
MANUAL	APPLICATIONS	DATE EFFECTIVE	6/30/2018
SECTION	BANKING STATISTICS (STAT)	VERSION NUMBER	29

- 1d (TEXTG551)
- 1e (TEXTG556)
- 1f (TEXTG561)
- 2c (TEXTG571)
- 2d (TEXTG576)
- 2e (TEXTG581)
- 2f (TEXTG586)

The following item should be null for the June, September, and December Reports:

Schedule RAL, Memoranda Item 17 (RCFD6724)

If the reporting agency or branch is not FDIC insured, the following items should always be reported as null:

- Schedule RAL, Statutory or Regulatory Requirement Items,
  - S3a (RCFD2334)
  - S3b (RCFD2387)
- Schedule C, Part II, All Items
- Schedule O, All Items

For FDIC insured institutions, the following items should be null for March, September, and December reports:

- Schedule C, Part II, All Items
- Schedule O, Memoranda Item 1a2 (RCONF050)
- Schedule O, Memoranda Item 1c2 (RCONF046)

For FDIC insured institutions, the following item should be null for March, June, and September:

Schedule O, Memoranda Item 3 (RCON5590)

For FDIC insured institutions, the following items can be null or actual regardless of date:

- Schedule O, Item 4 (RCFDF238)
- Schedule O, Item 5 (RCFDF239)
- Schedule O, Item 6 (RCFNF235)
- Schedule O, Memoranda Item 2 (RCON5597)

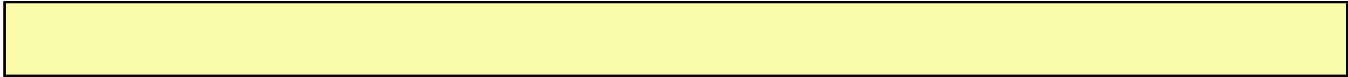

\* The following section addresses the reporting requirements for Schedule T. Schedule T is reported annually every December. For March, June, and September all items should be "null".

\* For December the following items are required:

Schedule T, item 1 (RCFDA345) must be " 1 " for yes, or " 0 " for no

If Schedule T, item 1 (RCFDA345) is " 0 " no:

DOCUMENT	CIPS TECHNICAL	RELEASE NUMBER	1.1
MANUAL	APPLICATIONS	DATE EFFECTIVE	6/30/2018
SECTION	BANKING STATISTICS (STAT)	VERSION NUMBER	29

Schedule T, items 2 thru Memorandum item 3.h, column B should be ' null '

If Schedule T, item 1 (RCFDA345) is " 1 " yes

Schedule T, item 2 ( RCFDA346) should be " 1 " for yes, or " 0 " for no

Schedule T, item 3 ( RCFDB867) should be "1 " for yes, or " 0 " for no

If Schedule T, item 3 (RCFDB867) is " 0 " no

Schedule T, item 4, column A thru Memorandum item 3.h, column B should be "null".

If Schedule T, item 3 (RCFDB867) is " 1 " yes,

Schedule T, item 4, column A through Memorandum item 3.h, column B, should be "actual".

- \* When applicable, the following items should be reported as single-digit numeric values to indicate responses to questions or statements on the report form.

For all institutions, for the March report, the following item should be reported with a value of '1a', '1b', '2', '3', '4', '5', '6' or '7' which represents a choice of a statement regarding auditing:

Schedule RAL, Memoranda Item 17 (RCFD6724)

Narrative descriptions (text) should be transmitted for the items below when the associated dollar value fields contain reported data. Text for each of these items may not exceed

- \* 50 characters, including punctuation and spaces:

Schedule RAL, Memo Items 14 and 15 text,

14a (TEXTA539)

14b (TEXTA540)

14c (TEXTA541)

FORMAT

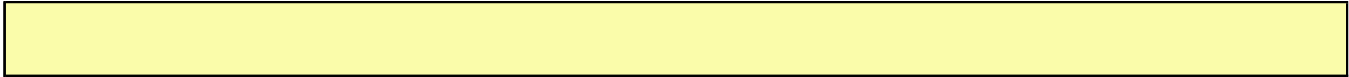

User Data File (UDF)

FFIEC002 VERSION 28

Reporting Central Application Data Record

<u>Field</u>	<u>Value Description</u>
(	Left parenthesis, indicates the start of a record.
Password	1-8 character password that will be provided by the FRB to each reporter submitting FFIEC002 data electronically
,	Comma, field separator
Report Name	FFIEC002 - literal
,	Comma, field separator
Report date	6 digit report as of date (YYMMDD) which must be the last calendar day of the quarter (e.g., 110331) and be equal to or greater than 140331
,	Comma, field separator.
RC reporting	1-10 character reporting institution identifier will be institution ID provided under separate cover to each reporter submitting FFIEC002 data

DOCUMENT	CIPS TECHNICAL	RELEASE NUMBER	1.1
MANUAL	APPLICATIONS	DATE EFFECTIVE	6/30/2018
SECTION	BANKING STATISTICS (STAT)	VERSION NUMBER	29

electronically to the FRB.

, Comma, field separator

Report record 6 digit data that indicates when the report data were created by the reporting institution (YYMMDD).

Field Value/Description

, Comma, field separator.

Report record 8 digit time that indicates when the report data were creation time created by the reporting institution in hours, minutes, seconds, and hundredths of a second (HHMMSSTT).  
The report record creation date and the report record creation time are used to ensure correct sequencing of report data received at the Federal Reserve Bank. Report data are stored only if the report record creation date and time are more current than that of the last transmission received for the report, report date, and reporting institution.

, Comma, field separator.

Data item This section contains the data items specific to Version 29 of the CIPS specifications for the FFIEC002 report. All the data item identifiers which must be included in the data file and their related report cells are listed and described below. Refer to information regarding the general layout and field descriptions in the General STAT Application Data Record, Section 9.4.2.

Refer to the FFIEC002 report from and instructions provided by your regulatory agency for additional information regarding the content of the application data file.

Right parenthesis, indicates the end of a report record.

DESCRIPTION: FFIEC002S VERSION 4

The following guidelines for the electronic submission of the FFIEC 002S should be observed:

- \* This report supplement to the FFIEC 002 should be filed by those branches and agencies of foreign banks which "manage or control" an offshore branch. Typically, this would be a so-called "shell branch" in the Caribbean, although it may in rare cases, be a branch located elsewhere offshore.
- \* Please note that the report name in the data file is "FIEC002S" (not FFIEC002S) due to the 8 character limit for this field.
- \* Numeric data items without reported data should be zero-filled. Text items which are not applicable should be reported as null.
- \* Item CRCB6862 must be reported with either a "1" for yes or a "0" for no.

FORMAT

User Data File (UDF)  
FFIEC002S VERSION 3  
STAT Application Data Record

<u>Field</u>	<u>Value Description</u>
(	Left parenthesis, indicates the start of a record.
Password	1-8 character password that will be provided by the FRB to each reporter submitting FFIEC002s data electronically
,	Comma, field separator
Report Name	FFIEC002S - literal
,	Comma, field separator
Report date	6 digit report as of date (YYMMDD) which must be the last calendar day of the quarter (e.g., 120331) and be equal to or greater than 180930
,	Comma, field separator.
STAT reporting	1-10 character reporting institution identifier will be institution ID provided under separate cover to each reporter submitting FFIEC002s data electronically to the FRB.
,	Comma, field separator
Report record	6 digit data that indicates when the report data were created by the reporting institution (YYMMDD).

<u>Field</u>	<u>Value/Description</u>
,	Comma, field separator.
Report record	8 digit time that indicates when the report data were creation time created by the reporting institution in hours, minutes, seconds, and hundredths of a second (HHMMSSSTT). The report record creation date and the report record creation time are used to ensure correct sequencing of report data received at the Federal Reserve Bank. Report data are stored only if the report record creation date and time are more current than that of the last transmission received for the report, report date, and reporting institution.
,	Comma, field separator.

Data item

This section contains the data items specific to Version 4 of the CIPS specifications for the FFIEC 002S report. All the data item identifiers which must be included in the data file and their related report cells are listed and described below. Refer to information regarding the general layout and field descriptions in the General STAT Application Data Record, Section 9.4.2.

Refer to the FFIEC 002S report from and instructions provided by your regulatory agency for additional information regarding the content of the application data file.

Right parenthesis, indicates the end of a report record.
